

CONTINUING THE STANDARD OF EXCELLENCE IN STONE FABRICATION

SINCE 1920

DAVID ALLEN COMPANY

SINCE 1920

David Allen Company has built a reputation of excellence as a commercial contractor for marble, granite, tile and terrazzo installations. Our new headquarters facility has enabled us to expand our capabilities to include a stone fabrication division. Utilizing state-of-the-art technologies, we are able to supply both the residential and commercial markets with custom stone fabrication.

COUNTERTOPS & MORE

WATERJET TECHNOLOGY

Waterjet cutting is essentially focused abrasion. Water and garnet sand are forced through a small nozzle at high pressure.

The cutting path follows a computer generated drawing. This new technology allows unlimited design capabilities. Masterpieces in stone, tile and other materials can be created for our clients' needs. Our staff artist can work with you to develop your own custom design, or we can work from drawings you provide.

Vickie Wilson, Staff Artist
